EXACT SIZING = SAFE LOAD ABSORPTION!

EasySecure **VETTER**
SMARTFORK® www.smartfork.com

MADE IN **GERMANY**

SmartFork® Secure
Forks with integrated light sensor in the fork tip

SmartFork®
Secure

YOUR BENEFITS:

► Safe loading
► Easy recognition of the end of a pallet
► No danger to lift up the pallet stored next in line, too

Application height
max. 120 mm

Minimum distance
to fork tip 22 mm

120 mm
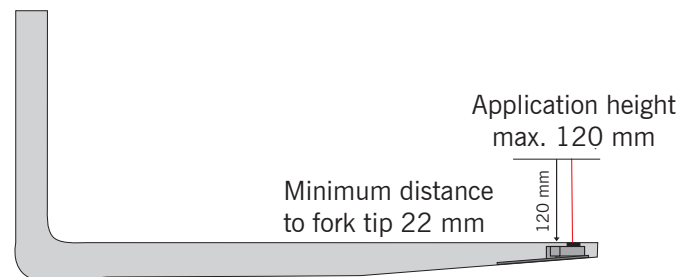

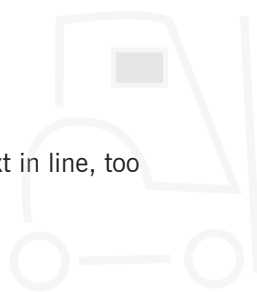

The application SmartFork® Secure inside the fork tip supports the forklift driver picking-up load in (block) storage. The space between 2 goods is reliably identified. The driver slightly drives back and prevents the fork tip sticking out.

SmartFork® Secure is displayed on a separate terminal / LED display.

INSTRUCTIONS FOR USE: ► Smooth function depends on the transported goods / load carriers. We kindly advice you!
